

Session Plan Template

Date:	Time:
Trainer name:	
Institution: ATC	Level: Module 1 Class: Masonry
Unit Code:	
Unit of Competence	Masonry Unit Production 1
Session title:	Interpret masonry units drawings
LLN or Other Requirements of trainee (group)	
Learning outcome/s	By the end of this session the learner should be able to: • transfer dimensions as per standards • identify elevations as per type • measure angles as per standards

Resources (references, and learning aids)				
Training manual or OSHA 2007 Plumbing Drawing standard		<u>Teaching aids</u> Laptop Text book		
Safety requirements Put on the right PPEs				
Session presentation				
1. Introduction (10 mins)				
Trainer: • Call the roll call • Introduce the session • Write the session title and learning outcomes				
2. Session Delivery				
Time (in minutes)		Trainer Activity	Trainee Activity	Learning Check/Assessment
Step 1	10 mins	Trainer: Introduce the unit	Trainee(s): Observe	Observation Oral questioning

Step 2 a)	40 mins	demonstrate transferring dimensions from drawings	identify and classify elevations	Knowledge - Oral question - Written Questions
b)	50 mins	- explain front,side and sectional elevations - demonstrate angle measurements tools and methods	- measure and mark angles - practice transferring dimensions to working surfaces	Knowledge - Oral question - Written Questions Attitudes Observation
c)	10 mins	Supervise learning activity	Using KWL based activity and dotmocracy	Skill demonstration

3. Session review:

Through question and answer highlight the key points

Assignment:

Student to demonstrate and interpret masonry units drawings

TOTAL TIME: 120 Minutes
Session reflection Learning Outcome achieved
Signature

Date:	Time:
Trainer name:	

Institution: ATC	Level: Module 1 Class: Masonry
Unit Code:	
Unit of Competence	Masonry Unit Production 1
Session title:	Produce concrete masonry products
LLN or Other Requirements of trainee (group)	
Learning outcome/s	By the end of this session the learner should be able to: • Prepare concrete as per block specifications • prepare concrete blocks as per procedure • cure concrete blocks as per procedure

Resources (references, and learning aids) Training manual os OSHA 2007 Plumbing Drawing standard	<u>Teaching aids</u> Laptop Text book
Safety requirements Put on the right PPEs	
Session presentation	
Introduction (10 mins)	
Trainer: Call the roll call Introduce the session Write the session tittle and learning outcomes	

2. Session Delivery				
Time (in minutes)		Trainer Activity	Trainee Activity	Learning Check/Assessment
Step 1	10 mins	Trainer: Introduce the topic	Trainee(s): Observe	Observation Oral questioning
Step 2 a)	40 mins	- Demonstrate PPEs for concrete work - demonstrate batching ,mixing and water ratio	- Wear PPEs - mix concrete	Knowledge Oral question Written Questions
b)	50 mins	- demonstrate moulding and compaction - explain curing methods	- mould blocks - cure blocks	Knowledge Oral question Written Questions Attitudes Observation

c)	10 mins	Supervise learning activity	Using KWL based activity and dotmocracy	Skill demonstration
3. Session review: <i>Through question and answer highlight the key points</i>				
<u>Assignment:</u> Student to illustrate Production of concrete masonry products				
TOTAL TIME: 120 Minutes				
Session reflection Learning Outcome achieved				
Signature				

Date:	Time:
Trainer name:	
Institution: ATC	Level: Module 1 Class: Masonry
Unit Code:	
Unit of Competence	Masonry Unit Production 1
Session title:	Produce clay masonry units

LLN or Other Requirements of trainee (group)	
Learning outcome/s	By the end of this session the learner should be able to: • Prepare clay as per requirements • prepare clay bricks as per procedure • dry clay bricks as per procedure • perform kilning as per procedure
Resources (references, and learning aids) Training manual or OSHA 2007 Plumbing Drawing standard	<u>Teaching aids</u> Laptop Text book
Safety requirements Put on the right PPEs	
Session presentation	
Introduction (10 mins)	

Trainer: Call the roll call Introduce the session Write the session title and learning outcomes				
2. Session Delivery				
Time (in minutes)		Trainer Activity	Trainee Activity	Learning Check/Assessment
Step 1	10 mins	Introduce the topic	Trainee(s): Observe	Observation Oral questioning
Step 2 a)	40 mins	• Demonstrate correct PPEs usage • illustrate clay selection,kneading and tempering	• Wear PPE correctly • prepare clay	Knowledge Oral question Written Questions

b)	50 mins	• demonstrate brick moulding process • demonstrate proper drying techniques • demonstrate stacking and firing in a kiln	• mould clay bricks • arrange bricks for drying • operate in firing	Knowledge Oral question Written Questions Attitudes Observation
c)	10 mins	Supervise learning activity	Using KWL based activity and dotmocracy	Skill demonstration

3. Session review:

Through question and answer highlight the key points

Assignment:

Student to demonstrate Production of clay products

TOTAL TIME: 120 Minutes

Session reflection

Date:	Time:
Trainer name:	
Institution: ATC	Level: Module 1 Class: Masonry
Unit Code:	
Unit of Competence	Masonry Unit Production 1
Session title:	Produce stabilized soil masonry units
LLN or Other Requirements of trainee (group)	

Learning outcome/s	By the end of this session the learner should be able to: • Prepare material as per job specifications • prepare soil blocks as per procedure • cure soil blocks as per procedure
Resources (references, and learning aids) Training manual os OSHA 2007 Plumbing Drawing standard	<u>Teaching aids</u> Laptop Text book
Safety requirements Put on the right PPEs	
Session presentation	
Introduction (10 mins)	
Trainer: Call the roll call	

Introduce the session Write the session title and learning outcomes				
2. Session Delivery				
Time (in minutes)		Trainer Activity	Trainee Activity	Learning Check/Assessment
Step 1	10 mins	Introduce the topic	Trainee(s): Observe	Observation Oral questioning
Step 2 a)	40 mins	- Emphasize safety in soil block production - demonstrate soil selection and stabilisation with cement	- Wear PPEs - mix soil and stabiliser	Knowledge Oral question Written Questions

b)	50 mins	- demonstrate block pressing using machine - demonstrate curing techniques	- press and form soil blocks - cure soil blocks	Knowledge Oral question Written Questions Attitudes Observation
c)	10 mins	Supervise learning activity	Using KWL based activity and dotmocracy	Skill demonstration

3. Session review:

Through question and answer highlight the key points

Assignment:

Student to demonstrate and explain soil blocks preparation and curing processes

TOTAL TIME: 120 Minutes

Session reflection

Level: Module 1

	Class: Masonry
Unit Code:	
Unit of Competence	Masonry Unit Production 1
Session title:	Perform stone dressing
LLN or Other Requirements of trainee (group)	
Learning outcome/s	By the end of this session the learner should be able to: • Identify and use required PPEs • identify required tools and equipment • dress stones as per working drawings • sort dressed stones by size and requirement

Resources (references, and learning aids)			
Training manual os OSHA 2007 Plumbing Drawing standard		<u>Teaching aids</u> Laptop Text book
